Subject: State of California 2022 Efforts to Advance Outstanding Aquifer Exemption Proposals

Dear Mr. Torres,

Please find attached, California's letter to the US EPA detailing the State's efforts and schedule to advance progress on outstanding aquifer exemption proposals. This letter follows through on a commitment made in our October 15th letter (also attached) to the US EPA in which we committed, among other things, to providing the US EPA an updated schedule by the end of the year for completing the remaining aquifer exemption proposals.

We look forward to continuing our engagement with the US EPA to protect California's drinking water aquifers and return California's Class II UIC program to full compliance with the SDWA.

Best Regards,
David

David Shabazian
